Callington Group

85+ Years of combined experience as chemical manufacturers

11 Countries with sales offices

150+ Countries serviced

6+ Markets including aviation, defense, health & more

2,500+ Airline and Defense Customers

Preventing The Spread

The World Health Organization provides recommendations for good hygiene practices to prevent the spread of the virus.

Cleaning hands with soap and water for at least 20 seconds.

Where soap and water are not available, using alcohol-based sanitizers.

In addition Callington suggests all surfaces should be cleaned with approved broad-spectrum disinfectants
